

30th August 2021

Hello Judith

I trust you are well.

We too are doing well.

Despite the fourth wave attacking the people more fiercely than all the other waves.

We have lost very many people from our community including our own members.

We however are strong in the Lord and I believe we will have victory over Corona Virus.

A lot of us have not been vaccinated, we are waiting for Johnson and Johnson vaccine from next week.

Last week but one we had our send-off package to our boys and girls who are joining high school. We were able to share with them stationery, tissue papers, sanitary towels, tooth brushes and tooth pastes, masks and soaps and detergents.

I'm so happy that all our pupils have already joined high school as I write despite the fact that economically life has been very hard.

We also managed to give ugali flour to the most vulnerable members and have already done three seed beds of kales which we hope to share with all our members who have small portions of kitchen gardens.

I would like to thank MCT very much for your continued support

We are ever grateful of your prayers and financial support.

Love and prayers

Esther
